Forecast for Sunday 10 Apr 2022

Weather: A cold, frosty morning expected across the park with clear skies and light winds. Fair weather cloud may bubble up from late-morning, otherwise fine and bright. High level cloud will gradually spread eastwards and thicken throughout the afternoon with sunshine turning increasingly hazy. Winds will strengthen during the evening, especially across higher summits. Dry during daylight hours, with a chance of some patchy light rain overnight in western parts.

Chance of cloud-free hill tops above 800m: 90%

Low Cloud and visibility: Generally excellent visibility with superb air clarity and distant hills clearly visible.

*Level above which ground is expected to be frozen/snow is expected to settle.

Meteorologist's View

A cold and frosty morning making some surfaces slippery underfoot. Windy conditions across peaks likely to result in significant wind chill and make for challenging walking, particularly after dusk. Appropriate warm winter clothing is advised.

Forecast for Monday 11 Apr 2022

Weather: Cloudy and dry during the morning with strong winds and a risk of summit gales. A band of showery rain will push northwards across the park during the afternoon, perhaps heavy at times. Cloud bases lowering at times with outbreaks of rain and drizzle likely, particularly on west facing slopes. Winds easing during the afternoon. A more organised and prolonged area of rain is expected to cross the park overnight.

Maximum wind: Easterly or southeasterly 15-20mph at low levels but 40-50mph across peaks, with gusts to 60mph.

Chance of cloud-free hill tops above 800m: 80%, lowering to 40% from late-morning.

Low Cloud and visibility: Broken to overcast cloud bases generally above summits but lowering in rain and drizzle, mainly west facing slopes. Cloud banks may cover tops overnight. Visibility generally good, but moderate in rain and poor or very poor where cloud lowers below tops.

Temperature: **Valleys:** Plus 4 Celsius rising to Plus 14 Celsius
At 800m: Plus 1 Celsius rising to Plus 5 Celsius.
Freezing level: Just above highest peaks.
